Giving Shape to Ideas

# **TOMORROW'S WORKPLACE TODAY INTRODUCING THE bizhub i-SERIES FROM KONICA MINOLTA**

Born from our desire to rethink the role of multifunctional devices in business, our next generation technology sits at the heart of your connected environment. Simply and securely bringing together people, places and devices to change the way you work.

### The workplace is changing

- As more tasks move toward individual work in a place of the individual's choice, central offices are becoming hubs for communication.
- As office documents become more digitised and the volume of data increases, centralised management and better access to documents is vital.
- As business data leaks and hacking become more commonplace, the need for security is increasingly critical.

### bizhub i-Series is the solution

- With simple operability and highquality performance, bizhub i-Series allows people to complete tasks efficiently and effectively from anywhere.
- With integrated cloud services that offer the right processes at the right time, bizhub i-Series builds more convenient workflows for everyone.
- With next generation security technology built in, bizhub i-Series provides a reliably safe environment for your business.

# i-SERIES IS SIMPLE AND SECURE RETHINK IT

We've simplified, secured and enhanced what technology can do for your business.

## **Key benefits**

- Stay in control of your information
- Protect your data and stop virus threats
- Security visibility, implementation and continuity
- The peace of mind to focus on core activities

### Intelligent simplicity

With a large touchscreen operation panel, smartphone style user interface and a display that users can customise with apps from Konica Minolta Marketplace, i-Series is intelligently simple.

## Next generation security

The next generation bizhub i-Series comes with the highest security standards built in.

With our bizhub SECURE services, we tailor the security settings to your needs, so your data is fully protected. And with integrated anti-virus software, it ensures no virus can harm your business.

# **i-SERIES IS INTUITIVE** RETHINK IT

Inspired by the way people interact with tech, we've completely redesigned the user experience.

### **Designed for people**

The stylish bizhub i-Series looks at home in today's office environment, with contemporary touches like a floating operation panel, rounded edges and LED status indicators.

With a 24° to 90° tilt angle, the large 10.1" tablet style touch panel provides convenient operation for all users, especially those in a wheelchair.

### **Putting users first**

The i-Series offers a market leading and intuitive smartphone style experience.

In fact, the user experience is so familiar there's practically no learning curve and users can customise their screen in the same way as their mobile device.

In the card-type Quick Copy screen, all main setting options are directly visible without scrolling or searching. Users can apply their desired settings with fewer clicks and pop-ups, making operation faster and more productive. You can also customise your personal home screen by simply adding or removing function icons. Widgets are supported as well, similar to Widgets on Android-based smartphones. This facilitates embedded functionality delivered by Apps into the home screen.

### The waiting is over

To boost workflow and cut out waiting time, the i-Series is our fastest ever range. In fact, thanks to its brand new Quad Core Central Processing Unit, it's four times quicker than our previous bizhub series.

The new controller integrates all processes and distributes tasks more effectively within the Central Processing Unit. As a result, the user experience is smoother and quicker and there is no waiting time while operating i-Series.

With the new Intelligent Media Sensor\*, paper weight detection is automatic, and the correct settings are applied every time. Enhancing user convenience, this avoids media setting mistakes and minimises paper jams.

(\*Intelligent Media Sensor is standard on bizhub C650i/C550i/C450i; optional on bizhub C360i/ C300i/C250i)

# **i-SERIES IS UNLIMITED POSSIBILITIES** RETHINK IT

# **ENHANCED EFFICIENCY AND PRODUCTIVITY**

To extend the workflow capabilities of the bizhub i-Series, and boost flexibility within your office, we developed Dispatcher Phoenix.

> To maximise productivity, i-Series eliminates repetitive tasks, cuts costs and reduces manual and human errors.

### **Dispatcher Phoenix**

Our advanced process automation solution, streamlines the handling of all document-processing tasks. This simplifies daily office routines to boost efficiency thanks to predefined workflow templates and customisable scan workflows.

It also facilitates the easy distribution of documents by scanning to SharePoint and Dropbox or to popular systems like Box, Google Drive, Microsoft OneDrive, and OneDrive for Business.

# **MAKE TIME FOR YOUR CORE BUSINESS**

Now you can make your business devices more powerful by simply adding new capabilities. Konica Minolta MarketPlace gives you the freedom to personalise your bizhub in the same way as your smartphone. The available apps bridge unproductive gaps between work processes to give you more time to focus on core tasks.

### **Streamline office routines**

Browse the Konica Minolta MarketPlace for new applications that serve your business needs. Then simply add them to all your devices – however large your fleet.

Updates are also deployed directly to your devices without cost-intensive maintenance. And as these apps run directly on your devices, you don't need to invest in additional infrastructure.

Konica Minolta's bizhub multi-functional devices provide a broad range of capabilities that serve all your needs. To minimise the time spent using your bizhub, simply change the control panel to meet your preferences. And because the user operation of any model is completely customisable, there's no need for special training.

### **Key benefits**

- Add and remove functions from the panel to match your bizhub with your workstyle
- Streamline your daily office routines
- Boost team productivity

# **i-SERIES IS SAFER** RETHINK IT

# **ALWAYS SAFE. ALWAYS IN CONTROL.**

Having complete protection against virus threats gives you the peace of mind to focus on other tasks. So to protect your data, the optional BitDefender anti-virus engine automatically scans all transmitted and received data – in real time. You can also run on-demand or scheduled scanning of your data, to make sure you stay protected.

 Optional BitDefender scans transmitted and received data to protect the i-Series

# **TOTAL CARE BY BIZHUB SECURE**

With bizhub SECURE services, we've made sure your business is fully protected by providing security tailored to your needs. Continuous security gives you one less thing to worry about. And because our team configures everything for you, you'll save time too.

## Safe and SECURE

- bizhub SECURE protects the data inside the memory of your i-Series
- BitDefender anti-virus engine defends you from the threat of viruses

# **i-SERIES IS SMARTER RETHINK IT**

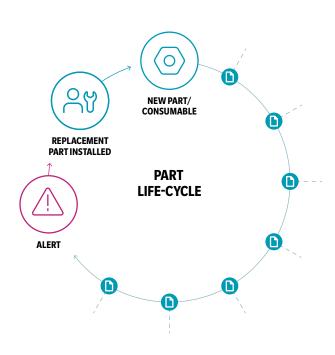

# **REDUCED DOWNTIME. ALL THE TIME.**

Features this advanced don't come from merely improving technology. To make bizhub i-Series work with everything you do, we set out to rethink everything we do.

Konica Minolta Worldwide Remote Service Platform provides a trouble-free experience and minimum downtime.

It also uploads the latest firmware, in real or scheduled time. So users know they're always working with up-to-date technology.

To ensure continuous and full use, i-Series intelligently collects data for self-diagnostic and remote maintenance and even predicts the optimum replacement time for parts and consumables.
